

# Wild About Winter

**Saturdays: December 8, 15, 22, and 29**

**Sundays: December 9, 16, 23, and 30**

**Susan Hambley Nature Center  
12 to 5 p.m.**

Different animals use different strategies, like hibernation, to help them survive winter. During this interactive program, follow tracks through the nature center to learn about, and maybe even test out, some of these neat strategies for preparing for winter! Stop in any time during open hours for this drop-in program. All ages are welcome. No registration required. Free.
