Director Eppink will sign an acknowledgment and advise Hope Recovery to donate 50 percent of its product to the community.
3. Deputy Director Stray provided an overview of a recent meeting he and Interpretive Services Manager Tender had with representatives of the Medina County Beekeepers Association to view a portion of park property off of Ballash Road that the group could use to create a community bee garden. The board authorized Director Eppink to offer the group a ten-year lease agreement to be drawn by Legal Counsel Holland and reviewed by the probate judge.

Though, currently, park police officers do not wear body cameras, Director Eppink provided the board with information regarding H.B. 315, signed into law last month, that clarifies a public entity's duty to respond to public records requests for body camera video for peace officers. He asked the board whether it would like to consider, during a future meeting, an updated public records policy to include police body cameras and footage captured by in-park security cameras.
2. The board asked the director to conduct additional research on the subject. Do all police agencies in Medina County use body cameras? Do officers of other park districts (besides Cleveland and Summit) use body cameras? Do other park districts have policies regarding the handling of public records requests for law-enforcement videos of a sensitive nature?

**B. Stewardship Fees and Restricted Fees**

1. Director Eppink asked the board where it would like to place stewardship fees collected from agencies for long-term maintenance of park sites such as funds from Stream + Wetlands foundation for Granger Wetlands Wildlife Sanctuary and from EnviroScience for the Mud Lake property in Westfield Township. These funds, restricted to their specific uses, could be accepted by the park district; however, Stream + Wetlands Foundation and EnviroScience have, separately, recommended that a third party hold stewardship fees on the park district's behalf, which is also acceptable to the Corps.
2. Alternatives to the park district holding the funds include asking Friends of Medina County Parks, Inc. (FOTP) to create restricted funds or working with the Medina County Community Foundation to establish stewardship or conservation funds with the payouts for each site being restricted to the individual properties.

1. Director Eppink shared three possible fund ideas that the park district could utilize to partner with the Medina County Community Foundation (MCCF).

    - b. In seeking a more collaborative approach to working together, Commissioner Davis, as the board liaison to FOTP, recommended that the director have conversations with her prior to Friends Trustees meetings so she can facilitate the conversations with the trustees.
